BEAT THE BABY'S LIFE OUT.

Unnatural and Drunken Parents Acoused of Committing a Frightful Crime.

THEIR ORGIE WAS DEATH TO THE INFANT.

What the Neighbors Found on Interfering with the Awful Caronsal in the Obek Hovel-Probable Murder.

Poverty, ignorance, dirt, murder, Surely a most awful quartette, but they awell together in alittledry goods box stranty on the bottoms just southeast of Metz Bros.

A little four months old baby is the victim and it is alleged to have been killed by its unnatural parents while indulging in the

wild orgres of an alcohol debauch. The case was first reported to the police Monday evening, but for some reason no notice was taken of it, and it was not until this morning, when a second complaint was made, that an investigation was instituted, and Sergeant Whalen visited the place, The mame of the family is Obek, and they occupy one of the most squalid and repulsive

of the many poverty-stricken and sincursed abodes that have made the south bottoms no-

They are Polanders, and like many of their neighbors cannot speak a word of English, while their surroundings are fearful for an Intelligent human being to contemplate.
The need of the family, George Obeix, is a thriftiess, shiftiess individual, too lazy to work and almost too lazy to steal, who allows, or rather compels his wife to do what ever hustling is necessary in order to keep the bodies and souls of the members of the household together.

During the winter she has done this by daily visiting the various hotels with a basket and securing such odds and ends as were left from the tables. In this manner the family of three children were fed, although at times

of three children were fed, although at times the fare was very scandy.

It seems that for several days past Ober has been on a spree and Monday morning both himself and wife became wielly drunk on pure, undiluted alcohol.

From a neighbor who could understand English, it was learned that at 10 o'clock yesterday morning the haby was in perfect health, for notwithstanding the intoward circumstances under which it existed, it was always a very strong, healthy child.

At norm it was a corpse.

At noon it was a corpse.

The only evidence as to the cause of its death is that of the other children, a girl five

years old.
She said that her father struck the child repeatedly while in its mother's arms and also while in its cradle. Certain it is that the arms, neek and back of the corpse are very much discolored and covered with black and blue marks.

The neighbor above referred to said she

Visited the place about most and found the mother beastly drunk, reeling about the house with the dead child in her arms. She took it and washed it and laid it out as well as she could. At that time she saw none

well as she could. At that time she saw none of the trarks that have since made their appearance, though the body was quite warm. When the officer visited the place the parents had not recovered from their debauch, and were hardly conscious of the tragedy. The coroner was notified and after visiting the house ordered the remains removed to Heafey & Heafey's, where an inquest will be held at 2 o'clock today.

Coroner Harrigan is of the coinion that the infant's death was caused by suffection, but whether either of the parents fell upon it or wilfully choked it to death is a matter of conjecture.

A neighbor's little girl who looked through the window says she saw the mother take the sleeping child from the cradie and deliberately choice it. The helpless mite of hu-manity writhed and screamed under the brutal treatment, and the woman then threw it back into the cradic. There are marks on the threat of the corpse

that might have been made by fingers in the act of strangulation. There is little doubt that death was violent and directly traceasle

to the parents' spree.

Obek is regarded by his acquaintances as a bad man, and when under the influence of liquor is particularly bad. He has frequently been heard to threaten the lives of parties who have incurred his displeasure, and the neighbors stand in mortal fear lest he should carry some of his threats into execution.

Obek was comparatively sober last even-Obck was comparatively sober last even

ing and stated, through an interpreter, that he did not know what caused the death of the irriant. He denied having struck it or in any way maltreated it, and was equally cer-tain that his wife had done nothing to injure it. He would not allow the woman to answer a question, but insisted on doing all of the talking himself. No arrests have yet been made and no com-

plaint will be filed until after the inquest. Do not take any chance of being poisoned or burned to death with liquid stove polish, paints or enamels in bottles. The "Rising Sun Stove Polish" is safe, odorless, brilliant,

the cheapest and best stove polish made, and the consumer pays for no extensive tin or glass package with every purchase. A RENTAL EXCHANGE.

New Departure Adopted by Real Estate Men.

The attendance at the morning session of the real estate exchange was about normal. The attention of the members was called to the fact that the regular monthly meeting of the exchange will be held next Saturday

The bylaws of the exchange will probably be amended at that time so as to provide for the establishment of a bureau of information for renters of houses. The object of the bureau is to keep track of tenants who find it cheaper to move than to pay rent, and protect the members of the ex change from being defrauded by people who are notorious in this line. This plan is in practical operation in many eastern cities

nd has proved beneficial to agents.

The scheme has been started in this city already, and is at present being looked after by a firm of agents, but the majority of the real estate exchange are in favor of having the bureau made a part of the exchange and the change will no doubt be made. At the morning session on Saturday the Star loan and trust company will provide a

luncheon in the exchange room. The idea of having these affairs each Saturday is grow-ing very popular and it is proposed to have

The cases will be commenced anew by the heirs within a sbort time, probably within the next few weeks and the attorneys for the plaintiffs state that the cases will be pushed as fast as the courts will allow.

CONSULT Moore's Tree of Life.

DES MOINES.

A positive cure for Kidney and Liver Complaints and all blood diseases. Doe it pay to suffer when you can be cured by using Moores! Tree of Life, the Great Life Kemedy? Princil per bottle. Prepared and put up by Dr. J. B. Moore.

TESTIMONIAL:

Dr. J. B. Moore, Dear Sir:—I have been troubled with kidney complaint for over twenty years, for about eight years with diabetes, and when at my study have been compelled to relieve myself as often as three or four times an hour. I have been troubled with sovere attacks of sick headache once a week for ten years, and it had been a combination some times unfitting me for my pastoral duties, and my presiding eider, George Miller, of Carliste, Ia., advised me to try a bottle of Moore's Tree of Life, as he had been greatly benefitted by it. I did so, and the very first bottle gave me great relief. I have taken in all 3 bottles, the first about five months ago, and I have been troubled but very little since I commenced its use.
